Blower Door Test Requirement & Form

Attention Contractor or Owner Builder:

Blower Door Testing is now a requirement in the Florida Building Code for residential units. This became effective July 1, 2017 per Florida House Bill 535. Any applicable permits being reviewed as of July 1, 2017 shall have blower door testing per Florida Building Code Energy Conservation R402.4.1.2 as part of the inspection process.

Applicable permits: Residential; R-2, R-3 and R-4 buildings 3 stories or less above grade plane. You are hereby noticed of your requirement to comply with the present code for this project.

Blower door testing is required for permits submitted from July 1, 2017 to present and shall be performed after creation of all penetrations of the building envelope. Testing shall be conducted by an approved third party and a written report shall be submitted to the building department by such agency prior to issuance of certificate of occupancy.

Air Leakage Test Results  Passing results must be 7 ACH (50) or less

\[
\text{CFM (50)} \times 60 \div \text{ACH (50)} = \text{Building Volume}
\]

Method for calculating building volume

- [ ] Retrieved from architectural plans
- [ ] Code software calculated
- [ ] Field measured and calculated

[ ] PASS  [ ] FAIL

- [ ] When ACH (50) is less than 3, Mechanical Ventilation installation must be verified by building department.

Certification of Test Results

R402.4.1.2 Testing. The building or dwelling unit shall be tested and verified as having an air leakage rate of not exceeding 7 air changes per hour in Climate Zone 1 and 2, 3 air changes per hour in Climate Zone 3 through 8. Testing shall be conducted with a blower door at a pressure of 0.2 inches w.g. (50 Pascals). Testing shall be conducted by either individuals as defined in Section 553.993(5) or (7), F.S. or individuals licensed as set forth in Section 489.105(3)(f), (g) or (i) or an approved third party. A written report of the results of the test shall be signed by the party conducting the test and provided to the code official. Testing shall be performed at any time after creation of all penetrations of the building thermal envelope.
